UHS – POHA COLLABORATION FOR HEALTH SYSTEM ISSUE & ONE HEALTH PROMOTION FOR EMERGING INFECTIOUS DISEASES

Dear Sir,

This is with reference to your letter dated 29th July, 2020 and our discussion on the subject cited above. Based upon our previous coordination and work, the resource material shared and the evidence available from Pak one Health Alliance website (www.pakonehealth.org), we believe that their exist sufficient common grounds and mutual interest areas, for our collaboration with POHA to work on curtailment of emerging infectious diseases in general and management of COVID-19 in Punjab in particular. This is the need for the hour for which University of Health Sciences will extend all possible support for such beneficial initiatives.

This collaboration will be effective immediately and extend till August, 2025.

Thanking you,

A handwritten signature in black ink, appearing to read 'Asad'.
